It's good medicine

Physicians Insurance Company of Ohio offers Ohio State Medical Association members a "total protection program."

Total protection means not only the finest professional liability insurance plan available, but also low-cost insurance coverages for your office, homes, autos and other possessions.

PICO can even insure your antique car or your golf cart.

PICO. Formed by physicians to serve physicians.

It's just plain good medicine.

From the Desk of the President

DIVIDE AND CONQUER

The phrase "Divide and Conquer" is certainly not a new one. When used in military strategy it meant that the conquering force engaged in battle with the enemy using its full fire power (even if only lances, arrows and catapults) against only a fraction of the enemy's forces. In this way, a modest force can defeat an overwhelmingly larger force if it engages only a portion of this force at any single encounter.

With the large number of suits against small component organizations within the framework of the medical profession at large, resources (fire power) are being dissipated at a more rapid rate and individual capitulation becomes more the rule.

The government strategy of division and conquering seems to be extremely effective. The forces of organized medicine are divided and splintered. Each component force of this overwhelmingly larger force of over four hundred thousand physicians becomes easier prey for Federal, State or local government agencies to subdue because the government forces with their unlimited fire power (tax money) are taking on the components of divided forces (physicians) and their limited fire power (dues and assessments).

It was heartening for me to see the attendance at our emergency meeting on Tuesday, Aug. 22. We had over 130 members present. This represents four times the number necessary for a quorum to transact business. At least, a significant number of our membership shows concern and I believe rightly so. If our Society succumbs to the overwhelming forces of the attorney general of Ohio, many more of these dominoes will fall. The eyes of organized medicine are certainly upon us. How we go in pursuit of justice for us and our colleagues may very well determine the direction the rest of organized medicine may take! Certainly, this is no time for timidity. It was heartening to get the endorsement of our members to pursue justice even if it means a slight bit of financial hardship (in the way of assessment) to them. Our forces, if consolidated, would be difficult, if not impossible, for any adversary to conquer. Let us unite our splinter groups and meet the enemy with our full fire power.

—G. H. Dietz, M.D.
President

Editorial

Recently Alexander Solzhenitsyn questioned our materialism, our manipulation of the law, our decadent art and our lack of political courage: "People in the West have acquired considerable skill in using, interpreting and manipulating law. Any conflict is solved according to the law. If one is right from a legal point of view nothing more is required and nobody may mention that one can still not be entirely right. I have spent all my life under a communist regime and I will tell you this, society without any objective legal scale is a terrible one indeed. But a society with no other scale but the legal one is quite unworthy of men either. Wherever the tissue of life is woven of legalistic relations, there is an atmosphere of moral mediocrity, paralyzing man's noblest impulses."

These are thoughts for our serious consideration and they should be taken critically and in a proper light. These apply to all of us as individuals and especially as physicians. Criticism of our lack of political courage should stimulate us all to become involved and activists in the political scene, be it in our interests in legislation concerning national health or our foreign policy. We should make our voices heard and we should take it upon ourselves to contact our congressmen and senators concerning any pertinent issues. Whatever legislation concerning national health that is passed within the next six months, we will have to live with through the next generation. It is imperative, especially at this time, that each individual physician be an active participant in the political process.

National health might do harm by re-enforcing public acceptance of the "no fault principle" that discounts personal responsibility for health. Today much illness is willful in the sense that it results from foolish living habits by people who have a duty to know better. Today insurance plans spread the burden by paying for illness, the prudent and dutiful are paying heavily for the irresponsible. Behavior has much more to do with how long and healthfully people live than our investment in medical treatments. People should be told that they are responsible and that health care is their duty not the government's!

PROCEEDINGS OF COUNCIL

(Excerpts from June and August meetings)

The following applications for membership were presented by the Censors:

ACTIVE: Ying Amorn, M.D.	ASSOCIATE: Wm. Richard Finch, M.D.
Tahir Firdaus, M.D.	B. N. Krishnasetty, M.D.
Nazim Jaffer, M.D.	Raul E. Pedraza, M.D.
Sai Che Young, M.D.	

The applications were approved. The applicants will become members of the Mahoning County Medical Society 15 days after publication in the *Bulletin* unless objection is filed in writing with the secretary before that time.

Dr. Tandatnick reported for the Constitution Committee. The constitution is now in printed, loose-leaf form for the first time in many years. A copy of the printed constitution has been sent to OSMA as required by that organization.

It was moved, seconded and duly passed that we buy a copy of the AMA film, "The Critical Difference." This movie will be shown at some future general Society meeting. It is anticipated that the film may be shown to various groups of the general public and physicians may be asked to volunteer to show the film at group meetings.

Notification of the establishment of an office for Physicians Peer Review Assoc., Inc. has been received.

Dr. Pichette announced a Sixth District meeting, called by OSMA, will be held Oct. 3rd at the Youngstown Country Club.

Mr. Rempes gave a summary of the OSMA Legal and Antitrust meeting for executive secretaries and attorneys, held at Columbus, July 20th.

Attention was called to an organization named International Rehabilitation Associates, Inc. which apparently contacts and works with patients. A letter from one of our members alleges that the organization did not contact physicians. Council will seek more information about the matter.

CONGRATULATIONS, DR. VUKSTA

Our congratulations to Dr. Michael Vuksta, recipient of the 1978 Ohio Outstanding Team Physician Award. It was a privilege for me to attend the Ohio High School Football Coaches Association Banquet in Canton on Aug. 3rd, and to make the presentation of this much deserved award. The citation read of his accomplishments over many years of dedication to sports medicine. He is a credit not only to the entire Youngstown Community, but to our Mahoning County Medical Society as well.

Again - - Our Congratulations, Mike!

—G. H. Dietz, M.D.

In Memoriam

JOHN F. STOTLER, M.D.

1915 - 1978

Dr. John F. Stotler, 62, died on Tuesday, June 20, of heart failure at St. Elizabeth Hospital Medical Center, following an illness of eight months.

Dr. Stotler was born in Youngstown. He was a graduate of St. Columba School and the Rayen School. He attended Ohio State University, and received his B.S. degree from the University of Chicago. In 1940, he earned his medical degree from Rush Medical College of Chicago U. He was an intern at Gallinger Hospital, Washington, D.C., and received a fellowship in surgery at the Mayo Clinic in 1941, specializing in thoracic surgery.

In 1945 he came to Youngstown to open offices in the Mahoning Bank Bldg. He worked with Dike Beede as team physician for Youngstown State University for many years. He was appointed to the board of the Mahoning Tuberculosis Sanatorium in 1951 and served as president in 1955 and 1956. In 1959, he was the first physician named to the Youngstown Board of Health and was president pro tem, 1963-64.

In 1964 he organized the summer school program at St. Elizabeth's called "Introduction to Careers in Medicine." He was Chief of Surgery at St. Elizabeth's for two years, and represented the hospital for several terms as a trustee of Associated Hospital Service.

Dr. Stotler was a member of the American College of Abdominal Surgeons, the Mayo Alumni Association, and was a member and past-president of the Chesterton Club. He was a member of St. Columba Cathedral.

* * * * *

BERNARD M. SCHNEIDER, M.D.

1915 - 1978

Dr. Bernard M. Schneider, 62, died on Friday, August 11, following a long illness.

Dr. Schneider was born in Cleveland, where he attended school, graduating from John Adams High School. His B.A., M.A. and M.D. degrees were earned at Ohio State University, from which he was graduated in 1940. Following an internship at Cleveland City Hospital, he took a medical residency at Youngstown Hospital Association. He was a Captain in the U.S. Army Medical Corps, 1942-1946.

In 1946, he came to Hubbard, where he practiced until his retirement in 1975. He was physician for the Hubbard football team. He was a member of Phi Beta Kappa, Sigma Psi honorary science fraternity, the President's Club of Ohio State University, and was a life member of the OSU Alumni Association.

He was a member of the American Academy of Family Practice, a life member of the Board of Trustees of the Hubbard Public Library, and was a past-president of Rodef Sholom Temple.

AMA PRESIDENT WAS MCMS SPEAKER

Tom E. Nesbitt, M.D., Nashville, was installed as the AMA's 133rd president at the annual convention in St. Louis last June. In May, 1976, Dr. Nesbitt came to Youngstown and gave an outstanding address to members and wives at the regular meeting of the Mahoning County Medical Society.

patient care center

sales & rentals

1821 Belmont Avenue
(216) 746-8871

6951 Market Street
(216) 726-1176

Specialists for in-the-home medical oxygen and respiratory therapy. Sales and rentals.

NO MORE TANKS!

The amazing Bendix Respiratory Support System makes bulky, high-pressure oxygen cylinders a thing of the past. This attractive, furniture-like unit literally manufactures oxygen from normal room air. The RSS draws room air through a series of carbon filters and molecular sieve beds to remove impurities and extract nitrogen content. The resulting oxygen enriched air, dialed in at concentrations of 90% at 2 liters per minute to 48% at 10 liters per minute, is delivered to the patient through conventional cannulas, masks and humidifiers. RSS operates without liquid or high-pressure cylinders and requires no chemical or gas filling. And, the high cost, inconvenience and patient apprehension of oxygen tanks in the home is eliminated. Only a small portable back-up cylinder is recommended. RSS operates on regular household current and is medicare-approved for purchase or rental.

- Oxygen cylinders and portable units.
- Expert service and repair.
- Ostomy supplies.
- 24-hour emergency phone line thru Medical-Dental Bureau.
- Delivery anywhere.
- A big, bright, beautiful and barrier-free showroom

VIAL OF LIFE PROGRAM INITIATED

A Vial of Life is being placed in the refrigerator of many individuals' homes in Mahoning County. The vial, a plastic cylinder strapped under the right hand shelf, contains an information form listing such items as the person's name, family doctor, allergies and other medical conditions, hospital preferred and whom to contact in case of emergency.

This free voluntary program is being established in Mahoning County by the Retired Senior Volunteer Program (RSVP), so that emergency crews going into a home will know in advance where they can quickly get information which may save a person's life.

The refrigerator has been designated as the one common location for placement of the vials since almost everyone has such an appliance; its location is readily apparent; and, in the event of a fire the interior of the refrigerator is the most secure place.

Cooperating with RSVP in this program as cosponsors and whose employees will be trained in the Vial of Life procedure are: AID, American, Clemente McKay, Gold Cross, Higgins, Kirila and Lane Ambulance Services; City and County Fire Departments; City and County Police Departments; and the Mahoning County Sheriff's office.

All the cosponsors will use green seals affixed to their vehicle dashboards to serve as a reminder that a vial may be in use when answering citizens' calls. All person utilizing the vials will also attach a smaller green seal to the outside of the refrigerator door, again as a reminder.

All updating of medical information must be done by the individual.

The major source of the vials has been St. Elizabeth's Hospital as it is the only hospital in Mahoning County which utilizes the specific type of vial necessary.

The AMVETS of Mahoning County are assisting in the distribution of vials. Places where persons may obtain the free Vial of Life are:

Beaver Township Police Station

Community Action Centers

Mahoning County Sheriff

Methodist Community Center

New Middletown City Building

Nutrition Program for the Elderly (all sites)

Gutknecht Tower

Norton Manor

Ohio Hotel

Vasu Manor

Mill Creek Community Center

Sebring Civic Center

Mahoning United Methodist Church

Public Library of Youngstown and Mahoning County—

(all branches and stations)

RSVP Office

Senior Information and Referral Center

Union Bank (main office and all branches)

St. Dominic's Church

Adult Day Care Center

Tabernacle Baptist Church

Struthers Manor

McGuffey Center

Holy Rosary Parish Hall

Bethel Lutheran Church

The Visiting Nurse Association, Special Outgoing Service of the Library, Meals on Wheels, and the Youngstown Society for the Blind and Disabled will deliver vials to their homebound clients. The Senior Information and referral Center will make deliveries only to senior citizens not receiving the above services.

Donna Chisholm, Director of RSVP, stresses that although the Vial of Life was initiated by RSVP it is available to any individual in need of such.

tall walnuts farm

Unsurpassed country living; total privacy, with over one-half mile of road frontage. Residence cannot be seen from any house in any direction, nor will anyone ever build within view, yet Ohio Route 7 is only one-half mile from house.

Eighty-five acres of prime deer, bird and small game country. The three lakes are rich in bass, blue-gill and catfish. Spillway of lake in front of house creates its own year-round waterfall. The house itself is 138 years old, built in 1840. Georgian in style, it has nine rooms (3 bedrooms). It is of brick and native stone with hand-hewn beams and massive oak frame timbers. Walls, including the cut-stone foundation and basement walls, are 18 inches thick, giving excellent insulation. Attic has 10' of blown-in cellulose insulation. Though entirely modernized as to wiring, plumbing, kitchen, bath, etc., house retains its original character. Three fireplaces; modern oil furnace capable of central air conditioning. Well has never failed, even when extensive irrigation was being carried out.

Grounds include six landscaped areas; four lovely smoke trees, lilac, bayberry, Rose-of-Sharon, magnolia and other blooming shrubs and trees. House is framed by two towering Norwegian spruce trees and magnificent walnut and cherry trees. Soil is well-drained and very rich, performs well in lawn, garden, orchard or landscape use.

The modern frame outbuilding comprises a 22' x 33' brick-floored 2-car garage and workshop, a 22' x 33' horse barn or storage shed, and a 66' x 11' roofed and buttressed overhang which overlooks the lake. This latter can be patio, horse stalls, machinery shed, as desired.

Additionally, the property has the following investment aspects:

- Coal in the estimated tonnage of seven figures;

- Gas; land overlies three proven drilling horizons. A lease is in being, providing for a royalty of 12½%, plus unlimited free gas to dwelling. Oil is probable, though not proven.

- Timber; roughly half the acreage is in walnut, cherry, red and white oak, poplar, hickory, birch and other trees.

Price is negotiable with or without mineral rights.

From the Bulletin

FORTY YEARS AGO — SEPTEMBER 1938

The entertainment committee had its troubles that year. Dr. Harry Patrick reported that 60 members returned their cards saying they would attend the picnic but 82 showed up. Four men who had returned their cards had to go to town for their dinner while 24 who had not returned cards found places at the table.

Dr. E. H. Young had an article on the "Treatment of Poisoning". He emphasized the treatment of shock and anoxemia as well as specific antidotes.

Dr. S. J. Goldblatt was studying obstetrics and gynecology at the University of Chicago. Fred Coombs was back from three years at the Massachusetts General. J. P. Harvey was in Boston studying heart disease with Dr. Paul White.

L. W. Weller attended the interne's reunion at Henry Ford Hospital and the fellowship reunion at the Cleveland Clinic.

Lyons Physician Supply recommended Dr. Weaver's Nasal Filter for hay fever patients but McKelvey's was pushing a new Allergy Electric Mask which was sure to remove 99.4% of the pollens from inhaled air.

THIRTY YEARS AGO — SEPTEMBER 1948

Dr. Frances Gambrel was resident in obstetrics and gynecology and Donald Dockry was resident in surgery at St. Elizabeth's Hospital.

Dr. Harold Reese had an interesting article on "Hycodan" the first codeine derivative.

At the golf meet with the Corydon Palmer Dental Society, Dr. Frank Bellino won with a score of 79, Dr. E. J. Wenaas was second with 84. Prizes were won by G. M. McKelvey, Sam Tamarkin, W. H. Welsh, W. H. Bunn and S. J. Ondash.

TWENTY YEARS AGO — SEPTEMBER 1958

President Detesco proposed forming a committee made up of past presidents of the Society. The function of the committee would be to meditate on the larger problems of medicine and make recommendations to Council.

Leon Bernstein's lecture to the Youngstown Hospital Staff on "Hypnosis" was a featured article. Earl H. Young and Simon W. Chiasson were joint authors of "The Practical Application of Hypnosis". Frank Gelbman wrote about "A New Medical Emergency" and made suggestions for the treatment of a person who failed to waken from a hypnotic trance.

Dick Gross was hospitalized in California with meningitis. Dr. Louisa Cervone died. She was the first practicing woman physician in Ohio. Dr. Waldo Z. Baker died after forty years of general medical practice.

Mr. Howard Rempes was hired in August as the first full-time Executive Secretary of the Medical Society. It was an excellent choice. On September 1, they moved into new offices in the Bel-Park Building.

TEN YEARS AGO — SEPTEMBER 1968

The Medical School Committee, spearheaded by Dr. Leonard Caccamo, launched a fund-raising campaign to defray the costs of a feasibility study to bring a Medical School to Youngstown State University.

The Heart Association Work Evaluation Unit under the direction of Dr. Frank Tiberio and Dr. A. V. Whittaker were handling three patients a week.

Dr. Wayne B. Hardin died after a long and valiant fight against cancer of the larynx. Dr. Harold Reese, immediate Past-President, became Director of Student Health Service at Central Michigan State University. "S. Q. Laypius" observed that hospitals are no place for sick people.

—Robert R. Fisher, M.D.

MORE NEOUCOM APPOINTMENTS

Additional clinical faculty appointments have been approved by the Board of Trustees of Northeastern Ohio Universities College of Medicine. Those from Mahoning County are:

Alexander Calder, M.D.	Assistant Professor of Family Medicine
David H. Levy, M.D.	Instructor of Family Medicine
Ikuo Maeda, M.D.	Assistant Professor of Orthopedics
James A. Lambert, M.D.	Assistant Professor of Surgery
John T. Turner, M.D.	Associate Professor of Surgery

More than 400 physicians have been named from the Youngstown, Canton-Massillon, Kent, Akron area since the College began development of its six year combined B.S./M.D. degree program.

LETTER

Dear Members of the Medical Society,

The Florence Crittenton Home of Youngstown extends a special "thank you" to the members of the Mahoning County Medical Society for helping us make this, our "Diamond Jubilee" year, possible.

Without your assistance we would not have been able to meet the needs of single pregnant women during the past 75 years.

Our location is still 1161 McGuffey and we continue to provide residential, educational and medical services to an average of 100 young women a year.

We look forward to continuing our joint efforts in future service to the community.

Sincerely,

(Mrs.) Janis Goodridge, Director

PicoLife **Life Insurance,** **With A Difference**

Mortgage Protection

This low-cost coverage is growing in importance, as real estate values continue to soar. It is the only form of life insurance designed specifically to pay off the mortgage on your home, in the event of your death.

Pico Life's mortgage protection plan provides decreasing term life insurance in an amount equal to the outstanding balance on your mortgage. It is available for periods of 10, 15, 20, 25 or 30 years. As an added feature, it may be converted to a whole life or endowment policy without a medical examination as long as the policy is in full force, and while you are age 65 or less.

With Pico Life, your home is secure and you have the availability of a valuable life insurance policy in your later years.

This is one of the many Pico Life insurance plans designed for members of the OSMA. A Pico Life representative will be happy to give you personalized information about life insurance, with a difference.

Physician...

your
"general practice"
couldn't be
more general
than in the Air Force

Our doctors treat everything from neonatology to geriatrics — and have the modern facilities and highly trained support staff to deal with each. A medical career in the Air Force offers other advantages, too — reasonable hours with time to spend with your family around the outstanding Air Force recreational facilities. Administrative support. Patient treatment without regard for ability to pay. An excellent program of education if you wish to specialize in one of the many areas of medicine.

Air Force... A Great Way of Life

If Our Area Manager Isn't In Maybe Our Secretary Can Help

Our Blue Shield professional relations managers are busy people, constantly out calling on doctors and their office staffs. Which means that if you phone, the area manager may not be in right at that moment.

However, expert help may still be available. The area office secretaries are trained and capable in providing assistance with the more common and frequent kinds of matters.

They can check on the status or disposition of claims, answer questions about whether a certain service is payable under a specific contract or find out if the patient is a currently enrolled Blue Shield subscriber.

We take our service seriously . . . all of us.
